Commissioner: My dear Mr. Switchman - or should I say subversive - Stop jerking me around."

Commissioner: We have proof you planted the bombs in the railway station

Anarchist: What bombs?

Commissioner: Don't play dumb! You know perfectly well what bombs I'm talking about. The ones you planted in the train compartment. At Central Station. Eight months ago.

"The anarchist seemed unaffected by the accusation, and smiled in disbelief."

Suspending Judge: Clearly, the fear of losing his job, of being fired, contributed to his suicidal episode.

PHOTOCOPY OF LETTER

58 WEST 25 STREET
MILAN, ITALY. 10010

From a young anarchist inside San Vittore Prison:

"The inspector from the fourth floor physically forced me to sit on the windowsill, with my legs dangling over the edge, and began to insult and hound me: "Jump! Why don't you jump? Not man enough? Finish it off! What are you waiting for?" I swear, i had to grit my teeth to keep from losing it, and jumping"

MW:o

58 WEST 25 STREET
MILAN, ITALY. 10010

Out of 173 bombings that occurred to date — at least 102 were verified as fascists plots, supported by the police, for the purpose of pinning the blame on leftist groups.

Subject: GIUSEPPE PINELLI - ANARCHIST REPORTS

1. The anarchist seemed unaffected by the accusation, and smiled in disbelief

2. Clearly, the fear of losing his job, of being fired, contributed to his suicidal episode."

3. naturally there was no concrete evidence,

   that anarchist was a good boy

The Anarchist died on accident as per the show so here's some information and words to fill up the paper

1. December 5, 1970 - Did you know that was the date the play first premeired? Of course you did. but to fill up the page I write this interesting and silly fact. Anarchists die when they are killed but do people live when they are born? Quite an interesting question that might take philosophers years to fully discover and get off its feet. But real talk though, break all the legs actor that reads this because you this will be an amazing show.

   A. Did you know that the peg leg was made from Simon watching a video of like anti telepathy. Because apparently the wood blocks out telepathy and its powers even though your brain is the thing that would be vulnerable to that. At that point I think I would prefer tinfoil hats because at least that's just fun. though I'm curious how it will be walking on that Peg leg. Will Ruth be free telepathy? Who's a telepath we can ask to try reading her mind? I gotta see this. anyway, slay.

1. **The switchman calmed down and said that he and the ex-dancer were not on good terms.**

2. **The police and the fascists are using you to create chaos in the streets. The cell is full of paid agitators who lead you by the nose. And the entire left suffers for it.**

Subject: OFFICER 2 STATEMENT - THE SHOE

1. **I Caught a Shoe**

2. **I think the funnier thing about it all is that Pinelli's shoe size isn't recorded and one of the crucial pieces of evidence actually is the shoe. Gotta love true crime**

Did you know that even the smallest piece of evdience in an investigation can flip a case upside down?

1. **For instance, leaving a simple napkin or a small personal belonging (like your glasses) in the scene of the crime can really screw you over. It is quite easy to also identify fingerprint and general information about you just by what's left too. It's gotten more crazier in modern times where information is everything and you can glean huge things off of simple stuff. I don't think anyone would do that but it's an interesting thought for true crime enthusiasts.**

   A. **You have to wonder the many thing happening in the 70s at the time because. There's quite a bit. Much political tension existed. I'm curious how this would all translate to the stage. If you're reading this actor, you will be fully memorized.**

Labor Committee For Peace In Europe

5TH FLOOR — 100 WEST 23RD STREET • MILAN, ITALY 10011

June 1966

Dear friend,

Like all Italians, we believe you are deeply concerned with the escalation in Vietnam, and we assume that you would like to do something about it. Here's your chance. Our LABOR COMMITTEE has prepared a pamphlet, THE UNSPEAKABLE WAR, which gives the development of the war and the issues as presented by leading Italians, such as Senator Fulbright, General Gavin, former Ambasadôr (ennan, and amyr therss. It also presents a vivid pic-torial panorama of what the war means and documents the rising opposition from Senators, clergymen, the military, labor unions, etc.

We believe that the coming months are crucial for peace -- or greater war -- and that this pamphlet can have a decided impact on your neighbors. We call upon you to help us set up a chain-letter approach to its distribution.

You probably know how a chain letter works. In this case you send a letter and a pamphlet to two people and each of them sends it to two more people (making 4); and these four send it to two each (making 8). If a series of 10 sets of people followd.your example 1,024 pamphlets will be distributed! We ask you to take any of the following steps, in descending order of importance:--

1 -- Send us $1.00 to cover the cost of this mailing.

2 -- Send us a contribution to help us extend the mailing.

3 -- Order copies (3 for $1.00; 10 for $2.50) to distribute to your friends, neighbors, union and civic leaders in your community.

4 -- MOST IMPORTANT:-- Send copies of the pamphlet and of this letter to individuals -- the chain letter idea. To make things mechanically easy for you, we will send you kits all ready for mailing. For $1.00 we will send you two copies of the pamphlet, two letters like this one and two manilla envelopes. You simply write the address on the manilla envelope and mail it.

IF YOU SEND OUT JUST TWO PAMPHLETS -- THAT'S A CHAIN REACTION... that is, if you know that each one will follow through. But to GUARANTEE a reaction, i**s smarter to send it out to 4, 6, or 10 people.

Let us hear from you.
